Dear Vivek,

Attached is the latest Covid report covering the past two weeks. As always, happy to answer any questions you might have with respect to the report's contents.

Additionally, I want to highlight two vaccine-related efforts that launched this week:

The first is the [WhatsApp chat bot](#) we launched with the CDC. This Spanish-language bot not only surfaces local vaccine appointments, it also links users with free Uber/Lyft rides to their appointments and childcare availability nearby. We're excited by the impact this will have on the LatinX vaccination rate.

Second, I wanted to share that we launched a notification to every Instagram user in the United States encouraging them to visit vaccines.gov. After months of state-specific notifications to IG's +150M users in the US, this is Instagram's first push to vaccines.gov. Based on the demographics of Instagram, we're looking forward to reaching the nation's youth and to having a positive impact on their vaccination rates.

Thanks and please don't hesitate to reach out.

Best

Nick
